## SUPER-CUT SCISSORS

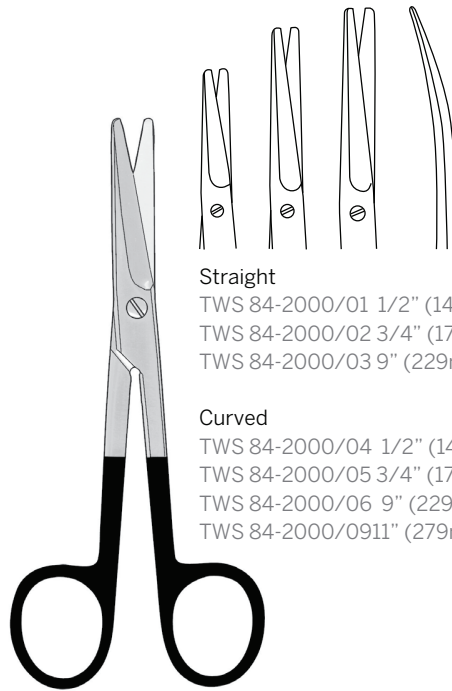

### SUPER-CUT SCISSORS

Super-Cut Scissors represent a truly remarkable advance in scissors technology. Using the finest surgical steel, the latest heat treating methods and master craftsmanship, the upper blade of the scissors is ground to a razor-sharp edge. This process creates scissors with an unprecedented smooth and effective cutting action.

#### Benefits of Super-Cut Scissors:

- Cut through soft and fibrous tissue without effort.
- Superb control permits precision in dissection.
- Less hand fatigue for the surgeon and less trauma for the patient.
- Retain sharpness longer than ordinary scissors.
- Ring handles are black-coated for easy identification.
- Fully autoclavable.

Surgeons who use our Super-Cut Scissors are convinced of their superior performance and won't do without them on their surgical trays.

#### Straight

TWS 84-2000/01 1/2" (140mm)  
 TWS 84-2000/02 3/4" (171mm)

TW Surgical

## SUPER-CUT SCISSORS

*The delicate offset shanks and the sharp Super-Cut edge provide better leverage. The fine knob slides easily under finger and toe bandages.*

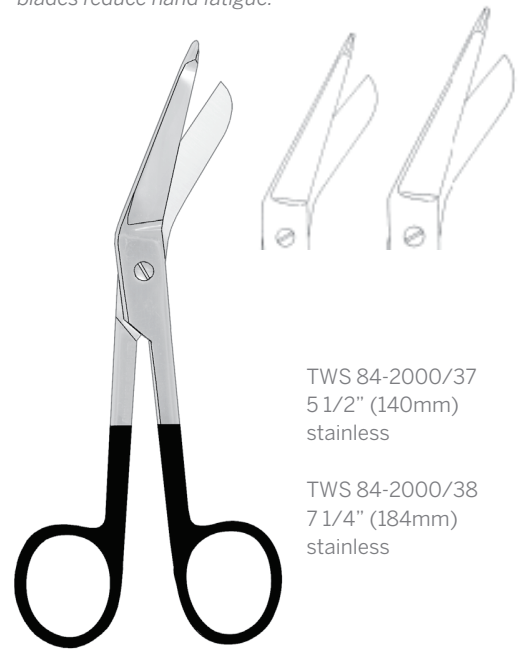

*Cuts bandages and multiple layers of dressing with ease. Razor-sharp blades reduce hand fatigue.*

- Very little strength is required for cutting, putting less strain on thumb and forearm.
- Perfect cutting control because you don't have to force them to cut.
- Retain their sharpness longer than ordinary scissors.

TWS 84-2000/36  
5 1/2" (140mm)  
shanks angled on side
